LEARNING ACTIVITY SHEET

Learning Area:	General Science	Quarter:	1
Lesson Exemplar No.:	1	Date:	
Lesson Title/ Topic:	Captured Moments: Uncovering Physics in Daily Life		
Name:		Grade & Section:	

I. Activity No. 1: Captured Moments: Uncovering Physics in Daily Life

II. Objective(s): At the end of this activity, you should be able to explain the physics principles involved in selected real-life situations captured in photos.

III. Materials Needed:

- Personal mobile phone or digital device
- Access to personal social media (Facebook, Instagram, TikTok, etc.) or photo gallery
- Printed photos (5)
- Magazines/newspapers (optional)

IV. Instructions:

1. Browse your photos or social media feed (Facebook, Instagram, TikTok, or personal gallery).
2. Select five (5) photos that show real-life applications of physics concepts. Print each photo.
3. If you don't have social media or a phone:
 - You may search Google or use any generative AI for sample photos.
 - If that's not possible, you can cut out photos from magazines and newspapers.
4. Complete the table below by analyzing each photo.

Picture	What is happening in the photo?	What Physics concept(s) are involved?	How is the concept applied in the situation?

V. Synthesis:

1. How did you select your photos?

2. Why is understanding the physics concept important in real-life situations?

3. How has this activity helped you understand the role of physics in daily life?

Rubric for Assessment (Total: 20 points):

Criteria	Excellent (4 pts)	Proficient (3 pts)	Basic (2 pts)	Needs Improvement (1 pt)
Relevance of Photos	All 5 photos clearly show real-life physics concepts	4 photos are relevant and physics-related	2–3 photos show basic relevance	Photos are unclear or unrelated to physics
Identification of Physics Concepts	Accurately identifies specific physics concepts for each photo	Mostly accurate, with minor errors	Some are correct, but lack depth	Inaccurate or missing concepts
Explanation and Application	A thorough explanation of how each concept is applied in the situation	Clear explanations with minor gaps	Basic attempt at explanation; lacks clarity	Incomplete or incorrect explanations
Reflection and Synthesis	Deep, thoughtful responses that show strong understanding and insight	Clear reflections with some depth	Basic responses, minimal insight	Lacks reflection or unrelated answers
Presentation and Organization	Well-organized, creative, and easy to follow	Organized and clear	Somewhat organized; needs improvement	Disorganized or lacks effort
