LEARNING ACTIVITY SHEET

Learning Area:	General Science	Quarter:	3
Lesson No.:	2	Date:	
Lesson Title/ Topic:	The Unifying Themes in Life Science		
Name:		Grade & Section:	11

Instructions:

Choose one biological system (e.g., circulatory, nervous, plant transport, immune). Answer the following questions in complete sentences.

Name of the biological system selected: _____

1. List and describe at least five key components of the system.

2. Explain how these components work together to maintain balance and function.

3. Identify one feedback mechanism or regulatory process within the system.

Part 2: Systems Thinking (Diagram Construction)

Instructions:

Create a labeled diagram of your chosen biological system. Your diagram should:

- Show the components and their functions
- Use arrows or symbols to illustrate interrelationships
- Include brief annotations explaining flow, regulation, or collaboration

(Use the box below or attach a separate sheet if needed)

A large, empty rectangular box with a black border, intended for a student to provide an answer or show work. It occupies the central portion of the page.
