LEARNING ACTIVITY SHEET

Learning Area:	General Science	Quarter:	3
Lesson No.:	5	Date:	
Lesson Title/ Topic:	Body Systems: Compare, Connect, Reflect		
Name:		Grade & Section:	11

Objective:

To analyze and compare two real-life health cases—a torn ACL and an asthma attack by identifying how different body systems are involved, how they interact, and why understanding these connections is important.

Part 1: Understand the Cases

- Case 1: A basketball player collapses mid-game, clutching their knee due to a torn ACL.
- Case 2: A young woman on a city sidewalk struggles to breathe during an asthma attack, using her inhaler.

Part 2: Create a Venn Diagram

- Use two overlapping circles.
- Label one circle **“Torn ACL”** and the other **“Asthma Attack.”**
- In each circle, list features unique to that case:
For example: affected body systems, symptoms, and causes
- In the overlapping section, list what both cases share:
For example: pain, impact on movement, involvement of multiple systems

Part 3: Analyze Body System Interactions

- Think about which body systems are involved in each case (e.g., muscular, skeletal, respiratory, nervous).
- Consider how one system affects another (e.g., how pain signals travel, how breathing affects oxygen supply).

Write Reflection (5-7 Sentences)

Answer the following questions in your reflection:

1. What are the key differences between the torn ACL and asthma attack in terms of the body systems affected? → Prompts identification of primary and secondary systems involved.
2. Which effects are unique to each case, and which are shared across both?
3. Why is it important to understand how body system work together?

Part 4: Presentation Format

- You may use paper, a digital tool (Canva, Jamboard, etc.), or a printable template.
- Make sure your diagram is neat and your reflection is clearly written.

Table 1 Assessment Rubric

<i>Criteria</i>	<i>Excellent (5)</i>	<i>Good (3)</i>	<i>Needs Improvementt (1)</i>
<i>Content Accuracy</i>	<i>All facts are accurate and clearly stated</i>	<i>Most facts are accurate</i>	<i>Many inaccuracies or missing content</i>
<i>Comparison Depth</i>	<i>Strong, detailed comparison with clear overlap</i>	<i>Adequate comparison with some overlap</i>	<i>Minimal comparison or missing sections</i>
<i>Reflection Insight</i>	<i>Thoughtful, well-explained, connects ideas</i>	<i>Explains ideas with some insight</i>	<i>Little to no explanation or insight</i>
<i>Total score</i>	_____/15
