“Hobbies and Interests of Young Adults”

In today’s society, teenagers and young adults engage in a wide variety of hobbies and interests that reflect both traditional pastimes and the influence of modern technology. With the rise of digital platforms, many spend their free time on activities such as online gaming, social media, and streaming movies or series. At the same time, others continue to enjoy reading, sports, music, and creative arts as a way to express themselves and build social connections. These hobbies not only provide relaxation and enjoyment but also shape their skills, identities, and relationships in an increasingly fast-paced and connected world.

A study was conducted on 50 young adults, and the table below shows their hobbies and interests.

Hobby / Interest	Number of Students	Percentage (%)
Playing Online Game	15	30%
Watching Movies/Series	10	20%
Sports/Exercise	8	16%
Reading Book/Comics	7	14%
Music (listening/singing/playing instruments)	6	12%
Arts and Crafts (drawing, painting, crafts)	4	8%
